Objective Statement

I am seeking a mutually beneficial situation, where my strong mechanical, interpersonal, leadership, and analytical skills increase efficiency and profitability for my employer, while growing my career within the organization.

Qualifications

Interpersonal: I am an effective communicator with superior customer service skills. I prioritize and complete tasks in a timely manner, and am capable of monitoring or training numerous employees at once. I have consistently demonstrated leadership skills, and am very quick to learn and understand new concepts and procedures.

Safety & Efficiency: Over the years, I have acquired a myriad of skills and have multiple certifications (available upon request), to include: OSHA crane certification, Back Safety Certification, Fire Safety, Electrical Certification, Eye Protection, Foot Safety, Combustible Gas, MSDS, Hazard, etc.

Work Experience

Deepwater Corrosion Inc. (2012-2015)

Lead CNC Waterjet Operator/Programmer/ Maintenance, self trained. Responsible for ensuring the machine stays up and running to allow steady workflow to the manufacturing process. Shows constant dedication and innovation. Excels at any task and welcomes a challenge.

W.D.N. (2006-2012)

Machinist: Efficiently ran a water jet machine and CNC Lathe. Constructing air plane parts and the break down and clean up of pallets and other materials. Fork-lift operator. Continually surpassed the quota provided my management.

Third Coast Services (2003-2006)

Foreman: Handle employees, map outline of work for the week, new hire & safety training. Close out intersections daily. Operate Man lifts and Bucket trucks, pulling of span wire, and sub frequently, travel out of town to monitor and complete sign and intersection jobs, with the skills to put up exit, and other various highway signs, run conduit (underground and overhead), read plans, also received multiple safety bounces.
