PROFESSIONAL SUMMARY

Veteran Electrician with a wide-range of experience in electrical wiring and installation of electrical panels and switch boards for buildings and industrial-level projects. I am very skilled on running conduit, good with fabrication of cable tray, 120 to 480 volt lighting, 480 volt transformers single phase and three phase, knowledgeable of motor control systems and starters, knowledgeable of most distribution systems from 120 to 480 volts, and some instrumentation work. like flow indicators, flow meters, thermal coupling for furnace. all so have work as maintenance electrician.changing out light bulbs incandescent and fluorescent. troubleshooting and testing mechanical and electrical equipment . good knowledge of the use of electrical test equipment. I all so have excellent communications skills. Works well with others, while skillfully making independent decisions.

SKILLS

Very experienced with temporary electrical power. knowledge of National Electrical Code Photo voltaic systems deep knowledge of conduit and cable tray good knowledge of motor control systems, and residential and commercial wiring.

- Schematic diagram interpretation
- Hand/power tools
- Good communication skills
- Basic computer skills
- Fast learner
- Strong initiative
- Strong mechanical skills
- Strong team player
- Supervisory experience
- Working night shift
- Formally trained in industrial electricity
- General math skills

WORK HISTORY

Certified Electrician

August 1997 to April 2015

Zachry Industrial Inc - San Antonio, TX
