

ENVIRONMENTAL SCIENCE GRADUATE

Oakland University graduate seeking employment in the field of Environmental Science.

AREAS OF EDUCATION

Laboratory Safety

Environmental Law

Ecology

Chemistry

Soil Science

Water Resources

Environmental Management Systems

SOFTWARE

MS Office

GIS – Arc Map & Arc View

EPI-SUITE

AWARDS

Eagle Scout, BSA

Employee of the Month –
The Home Depot

Three Homer Awards –
The Home Depot

EMPLOYMENT & INTERNSHIP

HAZARDOUS MATERIAL TECHNICIAN - Young's Environmental Cleanup, Inc, Flint, MI September 2014 - present

- Removed and safely disposed of hazardous materials from various sites.

ESTIMATING ENGINEER - Mersino Dewatering, Inc, Davison, MI August 2014 - September 2014

- Calculated the costs of various projects including sewer bypasses, well points and deep wells. Also made well point pipes, reviewed soil boring logs and reviewed specs for various construction projects. Company lost contract immediately after my hiring and had to lay off three employees.

GARDEN ASSOCIATE - The Home Depot, Auburn Hills, MI March 2010 - August 2014

- Worked 20+ hours per week while attending University full time

BIO-DIESEL INTERNSHIP - Oakland University, Rochester, MI July 2013 - September 2013

Oakland University Clean Energy Research Center:

- Used an existing transesterification reactor to convert batches of waste grease into usable bio-diesel
- Conducted extensive research into the economic feasibility and practical application of the bio-fuel

EDUCATION

B.S. Environmental Sciences

Minor in Biological Sciences

OAKLAND UNIVERSITY

Degree conferred December 2013

CERTIFICATION & TRAINING

OSHA 40 Hour HAZWOPER

GIS Trained (ArcMap, ArcView)

Other Environmental Modeling (Fugacity, EPI Suite)

Right-to-Know, Bio-Safety and General Lab Safety Training

Microsoft Skills (Word, PowerPoint, Excel)

Reach Truck License (The Home Depot)

Garden Certification (The Home Depot)

PROJECTS

Macro-Invertebrate Study – studied the contamination of leaves among various streams to gauge their health. Examined insects and noted the presence or absence of certain vulnerable species.

Forest Statistical Analysis – Conducted a study that analyzed the relative biomass of the forest at O.U.'s campus nature preserve.
