Objective:

Seeking an entry-level position as an Environmental Engineer. I am Engineering in Training (EIT) certified. I will add value to your company through my broad knowledge in environmental science and engineering, and my excellent oral and written communication skills, hard work, loyalty, energy, analytical approach, and being a productive team member.

Education:

Illinois Institute of Technology (IIT), Chicago, IL
Master of Environmental Engineering
December, 2013
Course Highlights: Chemodynamics, Environmental Chemistry

Shenyang Jianzhu University, Shenyang, China
Bachelor of Engineering in Water Supply and Drainage Engineering
June, 2011

Experience:

Urban Wastewater Analysis in Shenyang City, Shenyang City, China Researcher Jan. 2009-Dec.2009

- Studied the source of polluted water in Shenyang City and provided wastewater analysis for wastewater treatment plant scheme design

Dalian Water Supply Group Designing Co., Dalian, China Design Intern Jan.2010-Dec.2010

- Researched on planning of water supply line system
- Wrote papers about technology of urban water supplying based on background and conditions

Dalian Architectural Design & Research Institute Co., Dalian, China Design Intern Jan.2011-July. 2011

- Used Auto CAD to design the pipeline system in the buildings and researched the principles of designing plans and make performance analysis

Skills:

Engineering: Statistical analysis, Wastewater treatment plant design, Ground water remedial techniques study and analysis

Computer: Auto CAD, Microsoft Office Suite (Word, Excel, Power Point, Access)

Foreign Languages: Native in Mandarin; Fluent in speaking/reading/writing English

Activities:

- Secretary, Student Union, Shenyang Jianzhu University Nov. 2008
- Volunteer, TEDxIIT, Illinois Institute of Technology, Chicago Apr. 2012
