

Jack Colmenares

12109 Beverly Blvd Apt j, Whittier, CA 90601
(562) 743-4124 • jackcolmenares@yahoo.com

California State University, Long Beach (CSULB)

Bachelor of Science, Chemical Engineering

GPA: 3.1

2014

RELEVANT COURSES

- Heat and Mass Transport
- Process Control
- Reactor Kinetics
- Separation Processes
- Fluid Mechanics
- Thermodynamics
- Pollution Prevention
- Organic/Physical Chemistry
- Chemical Engineering Design

RELEVANT PROJECTS

Design Project, CSULB

Spring 2014

- Designed a chemical plant for the production of acrylic acid via the partial oxidation of propylene
- Simulated the process flow utilizing software such as Pro ii and conducted material balances
- Designed the separation portions of the process such as the distillation columns and an extraction units

Process Control, CSULB

Fall 2013

- Improved the control of the liquid level loop for a tank and the temperature control loop of a heat exchanger
- Implemented various different types of controllers to both of the aforementioned including disturbance rejection and set point tracking

Crossed Double Aldol Condensation, CSULB

Fall 2012

- Crossed aldol condensations were performed to form the desired carbon-carbon bonds with two different types of carbonyls
- The synthesis of dibenzalacetone was done through a double condensation aldol reaction between acetone and benzaldehyde, in which the enolate ion was formed and added to the alpha positions of acetone to yield the desired product

WORK EXPERIENCE

Lakeshore Learning: Seasonal Order Taker, Carson, CA

November-December 2014

- Managed a high volume of inbound calls by handling customer inquiries as well as entering and processing credit card orders
- Enhanced the shopping experience by rendering excellent service and resolving customer issues in a timely and effective manner

Costco Wholesale Corporation: Front End Assistant, La Habra, CA

November 2009 – January 2010

- Cooperated with cashiers to load Costco member's merchandise and quickly retrieved carts and flatbeds
- Closed down a portion of the warehouse, and insured that merchandise was in order, neatly stacked, and readily available for the following day

Juan Great Fiesta Restaurant: Cashier, Montebello, CA

July 2008 – May 2009

- Closed down register, handled all cash transactions, and took customer orders over the phone
- Performed food preparation and cleaning duties in a collaborative and efficient way

SKILLS AND RELEVANT SOFTWARE

- Lab View
- Loop Pro
- Pro II
- Excel/Word
- Wet chemistry Techniques
- Bilingual (Spanish)
- Gravimetric Analysis
- Organic Synthesis
- Safety Oriented
- Acid-Base Reactions
- Electroplating
- IR &NMR

LEADERSHIP ROLES

- Society of Hispanic Professional Engineers (SHPE) Affiliation –Dean's list 2009
- American Institute of Chemical Engineers (AIChE) Affiliation - Society of Petroleum Engineers (SPE) Affiliation
