

John P. Nybo

5 Rudy's Grove Lane
Tijeras, New Mexico

Geologist

630.816.0528
jpnpybo@gmail.com

Academic Background:

June 2014 M.S. Geology, New Mexico Institute of Mining and Technology (NMT) GPA: 3.53
Thesis: $^{40}\text{Ar}/^{39}\text{Ar}$ Geochronology of the Navajo Volcanic Field
Fall 2009 B.S. Geology, Northern Illinois University (NIU) GPA: 3.15

Work Experience:

Contract Geologist, Corvus Gold (2014 - present)

Detailed tablet-based logging of oriented core in intensely altered felsic volcanic rocks
Use of TerraSpec near-infrared spectrometer to identify patterns of clay alteration

Research Assistant, New Mexico Bureau of Geology (2012 - 2014)

Analyzed samples using mass spectrometry, petrographic microscopy, and electron microprobe
Designed and fabricated an ultra-clean air/hydraulic rock crusher and parts for a custom noble gas extraction system

Summer Geologist, Barrick Gold Exploration Turquoise Ridge JV, (2012)

Correlation of p-XRF, aqua regia, 4-acid, and whole rock analyses to develop mafic rock classification
Regional cross sectional work to assess geochemical and structural trends

Teaching Assistant, New Mexico Institute of Mining and Technology (2010-12)

Led lab and field sections of 5-20 students for Field Camp, Structural Geology, Petrology, Geology 101
As head TA for Geology 101, developed a field based curriculum with several introductory mapping projects

Manager, American Bicycle of Plainfield, (2007-10)

Responsible for managing ~7 employees, maintaining budgets and inventory, and insuring customer satisfaction
Promoted higher levels of mechanical aptitude and safety in the repair shop by instituting new policies and guidelines

Mechanic, Motorcycle Center---Team MCC, (2006-07)

Maintained and repaired exotic European motorcycles
Diagnosed complex electrical and mechanical maladies

Skills:

Sampling and characterization of materials on a regional scale
District wide exploration and field mapping of Pb-Zn-Cu skarn deposits
Adept in ioGas, Surfer, Microsoft Office, Adobe Illustrator, AutoCAD and other 3d modeling programs
Familiar with acQuire, ArcGIS, and Vulcan software suites
Capable of working at high altitudes and in remote locations

Relevant Classwork:

Mineral Deposits & Seminar, NMT
Advanced Mineral Exploration, NMT
Radiogenic Isotope Geochemistry, NMT
Stable Isotope Geochemistry, NMT
Structural and Determinative Mineralogy, NIU
Stratigraphy, NIU
Groundwater, NIU

Geological Interests:

Ore Deposits and Remediation
Geochemistry
Field Mapping
Structural Geology
Petrography
Mineralogy
3D Modeling

Interests and Hobbies:

Combining lithological, structural, and geochemical data to assist the identification of non-visible variations
Development and fabrication of tools for novel use in geology
Creative ad-hoc field repairs of machinery and equipment
Bicycles, motorcycles, mountaineering, and vintage British automobiles
