CAREER OBJECTIVE

I would like to utilize my mechanical ability, and experience in an environment where I can obtain career stability and growth.

EDUCATION

Denver Automotive and Diesel College - Denver, Colorado

Somerset County Vocational/Technical Institute - Bridgewater, NJ

LICENCES AND CERTIFICATES

Commercial Driver's License Class A
Certified in Refrigerant Recovery and Recycling
ASE Certified - Auto and Truck

PROFESSIONAL EXPERIENCE

PSEG - Somerset, NJ

Fleet Mechanic - Performed troubleshooting, diagnostics, repairs and maintenance off all PSEG vehicles.

Aerial Lifts - Inspected, repaired and adjusted aerial lifts and digger derricks using hydraulic pressure gauges and flow meters. Ensured proper working condition of power take offs, hydraulic pumps, interlock valves, outrigger cylinders, leveling chains, holding valves and hydraulic control valves. Fabricated and replaced hydraulic hoses. Repaired and replaced rotation motors and gear boxes.

Medium and Heavy Duty Trucks - Performed all levels of preventative maintenance and DOT inspections. Diagnosed, repaired, or replaced diesel engines and manual and automatic transmissions. Inspected, adjusted and replaced hydraulic and air brake systems. Diagnosed and repaired fuel systems, cooling systems, computer controls, air conditioning and steering and suspension systems.

Cars, Vans and Light Trucks - Diagnosed and repaired engines, drive train, brake systems, and ignition and electrical problems. Repaired and replaced exhaust systems as needed. Diagnosed problems of steering, suspension and air conditioning.
Position held from March 2008 to Present.

The Brickman Group - Bridgewater, NJ

In Shop and On Road Fleet Mechanic - Responsible for the repair and safe working order of trucks, trailers, skid steers, and backhoes. Maintained mowers, snow removal equipment. Scheduled preventative maintenance services and DOT inspections. Responsible for fabrication, welding, and the use of an oxyacetylene torch.
Position held from March 1999 to March 2008
