## EDUCATION

North Carolina State University, Raleigh, NC

Bachelor of Science

Expected Graduation May 2015

*Major:* Environmental Technology and Management

Major GPA: 3.130

*Minor:* Environmental Toxicology

### Relevant Courses

- Water Quality Assessment
- Fundamentals of Air Pollution
- Introduction to Environmental Regulations
- Principles of Toxicology
- Biogeochemistry of Soil
- Soil Classification and Genesis
- Groundwater Monitoring and Remediation
- Pollution Prevention
- Environmental Impact Assessment
- Environmental Toxicology and Chemistry

### Educational Experience

*Stream Assessment of Little Rock Creek in Raleigh, NC*

- Used various water quality instruments to obtain data to measure quality of the water
- Visual stream observations via Rapid Stream Assessment Techniques
- Determined water quality by studying six different sites along the creek

*Groundwater Monitoring at NCSU Rocky Branch Creek Greenway in Raleigh, NC*

- Applied proper groundwater sampling techniques and procedures
- Obtained samples and completed forms to send to laboratory for analysis
- Compared data to NC Surface Water and NC Groundwater Standards

*Environmental Impact Assessment of Biofuel Power Plant in Eastern NC*

- Determined the best location for a 15-25 megawatt biofuel plant
- Applied environmentally stable resources to fuel the plant
- Concluded the sufficient resources were available for current and future biofuel plants

*Soil Mapping Project of Mid Pines Road in Raleigh, NC*

- Created a soil map of a field owned by NC State University
- Collected soil samples and documented sampling locations on an aerial photo of the field
- Used taxonomic classification and other information to determine different soil varieties within the field

---

## PROFESSIONAL EXPERIENCE

*Pharmacy Technician: Bladen County Hospital Department (Elizabethtown, North Carolina)*

*June 2010-present*

- Communicated with nurses and doctors to better the patients' visit
- Compiled and input orders into a computer system to be verified by the pharmacist
- Supervised and trained several new technicians on order entry and other pharmacy-related tasks

---

## SKILLS

- GPS instruments, GIS instruments and ArcGIS program
- Utilizing water quality instruments such as: Accumet pH meter, HACH2011P, YSI-2, YSI-3 ProPlus with Quatro, YSI-5, YSI-6, and YSI Professional Plus with Quatro Pro
- Microsoft Office (Excel, PowerPoint, Access and Word), LinkedIn, Facebook and Instagram

---

## CERTIFICATIONS AND HONORS

- OSHA 40-Hour HAZWOPER
- Eagle Scout
