WORK EXPERIENCE

ABB Robotics Operator

Inalfa - Acworth, GA - November 2013 to May 2014

Responsibilities

Assembled front and rear beams along with driver and passenger guides onto a frame cell platform. I operated an ABB Robot that put together the 4 pieces of material that took shape of a sunroof to be conveyed on the production line for assemblers to complete the sunroof via SOP instructions for FORD specifications. Performed quality checks on finished sunroofs and administered gauged and water test.

Accomplishments

Acquired new skill sets. Being able to produce the necessary frames for the production line to have and also keep up with our nightly quotas. Learning how to troubleshoot when the robot goes down to keep it running and still have the capability to produce our quotas.

Skills Used

Being a quick learner, understanding SOP'S (standard operating procedures), training new employees how to operate the robot, being a leader and facilitate unique situations when called upon.
