Summary

MIG welding specialist proficient in using torch, plasma, air sac, stick weld and forklifts. Capable of reading and interpreting blueprints, drawings and diagrams, Certified Pipe Welder talented in flux core arc welding, gas tungsten and gas metal arc welding. Knowledgeable self-starter capable of operating heavy equipment, supervising large crews and maintaining proper safety standards. Welder with extensive knowledge of structural, mild and stainless steel and aluminum.

Highlights

- TIG welding expert
- Expert in sub-arc welding
- Expert in stick welding
- Reading drawings, models and blueprints
- Flux core (FCAW) welding
- Sheet metal fabrication
- Pipe welding
- Available to work nights and weekends
- Available to work extended hours

Accomplishments

Advanced certifications in TIG, MIG and Arc welding.
Class A Certified Welder

Experience

Welder

May 2012 to February 2013

Trinity Rail – Longview, Texas

Laid out, fitted and fabricated metal components. Combined welding techniques, knowledge of metallurgy and engineering requirements to produce quality work. Inspected grooves, angles and gap allowances with micrometer, caliper and precision measuring instruments. Heated, formed and dressed metal parts with hand tools, torch and arc welding equipment. Precision cutting with power saws, hand shears and chipping knives. Operated manual and semi-automatic welding equipment to fuse metal segments together. Adjusted functional parts of equipment and control instruments. Installed fabricated metal components in the processing plant. Set up equipment and welded parts according to welding chart specifications and type. Set up and operated stress relief oven adhering to welding procedure parameters. Completed minor torch ups with MIG welders. Followed all safety guidelines, including proper machine guarding and lockout and tagout procedures. Adjusted the weld machines to the correct settings prior to weld applications. Cleaned and degreased weld joints and workpieces efficiently. Prepared broken parts for welding by properly grooving and scarfing surfaces.

Welder

October 2011 to May 2012

Manpower – Longview, Texas

Combined welding techniques, knowledge of metallurgy and engineering requirements to produce quality work. Heated, formed and dressed metal parts with hand tools, torch and arc welding equipment. Operated manual and semi-automatic welding equipment to fuse metal segments together. Monitored the fitting, burning and welding processes to avoid overheating parts, warping, shrinking, distortion and expansion of materials. Laid out, positioned, aligned and secured parts and assemblies with straightedges and combination square and calipers.

Education

High School Diploma : Basics

Big Sandy High School – Big Sandy, Texas, United States

Machining Certificate

Certificate in Combination Welding
