400 S E ave , Oilton, OK 74052 | H: 918-306-9633 | jgambler91@gmail.com

Summary

MIG welding proficient in using torch, plasma, air sac, stick weld and forklifts. Capable of reading and interpreting blueprints, drawings and diagrams. Certified Pipe Welder talented in flux core arc welding, gas tungsten and gas metal arc welding. Welder with proficiency in MIG, flux and stick welding, drill press, crane operation and metal fabrication.

Highlights

- TIG welding expert
 - Expert in stick welding
 - Reading drawings, models and blueprints
 - Flux core (FCAW) welding
 - Pipe welding
 - Expert knowledge of 0.35 to 3/32 wiring
 - Available to work nights and weekends
 - Available to work extended hours
-

Accomplishments

Advanced certifications in TIG, MIG and Arc welding.

Experience

Welder **09/2013 to 01/2014**
TD Williamson **Tulsa, OK**

Laid out, fitted and fabricated metal components. Inspected grooves, angles and gap allowances with micrometer, caliper and precision measuring instruments. Heated, formed and dressed metal parts with hand tools, torch and arc welding equipment. Operated manual and semi-automatic welding equipment to fuse metal segments together. Monitored the fitting, burning and welding processes to avoid overheating parts, warping, shrinking, distortion and expansion of materials. Adjusted functional parts of equipment and control instruments. Set up equipment and welded parts according to welding chart specifications and type. Completed minor torch ups with MIG welders. Followed all safety guidelines, including proper machine guarding and lockout and tagout procedures. Application of electrode and gun along weld line to create precision pieces. Adjusted the weld machines to the correct settings prior to weld applications. Cleaned and degreased weld joints and workpieces efficiently. Positioned and clamped workpieces together and properly assembled them in jigs and fixtures. Inspected chains, hammers and other tools for damage or wear to prevent injuries and accidents.

Welder **07/2013 to 09/2013**
T&D Fabrications **Drumright, OK**

100% xray, Laid out, fitted and fabricated metal components. Combined welding techniques, knowledge of metallurgy and engineering requirements to produce quality work. Heated, formed and dressed metal parts with hand tools, torch and arc welding equipment. Operated manual and semi-automatic welding equipment to fuse metal segments together. Monitored the fitting, burning and welding processes to avoid overheating parts, warping, shrinking, distortion and expansion of materials. Set up equipment and welded parts according to welding chart specifications and type.

Welder **07/2012 to 07/2013**
Victory Energy **Cushing , OK**

100% Xray. Laid out, fitted and fabricated metal components. Combined welding techniques, knowledge of metallurgy and engineering requirements to produce quality work. Heated, formed and dressed metal parts with hand tools, torch and arc welding equipment. Monitored the fitting, burning and welding processes to avoid overheating parts, warping, shrinking, distortion and expansion of materials. Adjusted functional parts of equipment and control instruments. Set up equipment and welded parts according to welding chart specifications and type. Completed minor torch ups with MIG welders. Followed all safety guidelines, including proper machine guarding and lockout and tagout procedures. Application of electrode and gun along weld line to create precision pieces. Adjusted the weld machines to

the correct settings prior to weld applications.Cleaned and degreased weld joints and workpieces efficiently.Prepared broken parts for welding by properly grooving and scarfing surfaces.Positioned and clamped workpieces together and properly assembled them in jigs and fixtures.Inspected chains, hammers and other tools for damage or wear to prevent injuries and accidents.

Welder

04/2010 to 07/2012

T&D Fabrication

Drumright, OK

100% xray Laid out, fitted and fabricated metal components.Combined welding techniques, knowledge of metallurgy and engineering requirements to produce quality work.Heated, formed and dressed metal parts with hand tools, torch and arc welding equipment.Monitored the fitting, burning and welding processes to avoid overheating parts, warping, shrinking, distortion and expansion of materials.Adjusted functional parts of equipment and control instruments.Set up equipment and welded parts according to welding chart specifications and type.Completed minor torch ups with MIG welders.Followed all safety guidelines, including proper machine guarding and lockout and tagout procedures.Application of electrode and gun along weld line to create precision pieces.Adjusted the weld machines to the correct settings prior to weld applications.Cleaned and degreased weld joints and workpieces efficiently.Positioned and clamped workpieces together and properly assembled them in jigs and fixtures.Inspected chains, hammers and other tools for damage or wear to prevent injuries and accidents.

Welder Helper

10/2006 to 06/2009

Krlin Fabrications

Drumright, OK

Helped Welders with anything they needed help with, tack welded, shot pins and laid heating blanket in stack, and sand blasted.

Education

Technical : Welding

2010

Vo-Tech

Drumright, OK, Creek

Coursework in Arc and MIG Welding,Certificate in Combination Welding
