

Kevin Fain

1020 Raleigh Dr., Apt 2307 | Carrollton, TX 75007

(619) 840-4523 | KevinCFain@gmail.com

EXPERIENCE

United States Army, Tacoma, WA

(04/2011 – 11/2013)

Power Generation Equipment Repairer

- Maintain operational readiness by performing routine and annual maintenance on generators ranging from 3k-60k.
- Troubleshoot and repair power generation equipment as required to include relays, voltage regulator, switches, gauges, fuel injection pump, starter, etc.

La Jolla Playhouse/UCSD, La Jolla, CA

(01/2011 – 03/2011)

Carpenter/Welder

- Built and install scenery per blueprints, utilizing MIG welding and various scenic construction methods and materials.
- Operated a drill press, band saw, cold saw and ironworker
- Performed metal fabrication of steel frames
- Performed MIG welding on mild steel, grinding, plasma and oxy-acetylene cutting
- Operation of basic CNC router table

Z Microsystems (through Staffworks, LLC), San Diego, CA

(10/2010 – 01/2011)

Mechanical Assembler I

- Performs a wide variety of non-repetitive and semi-complex mechanical, electronic or electro-mechanical assembly operations under close supervision on components or subassemblies.
- Follows methods and sequences of operations in wiring component installation on assembly units.

Solar Turbines (through Volt Workforce Solutions), San Diego, CA

(03/2010 – 09/2010)

Structures Packaging Mechanic

- Layout, fabricate mock-up, assemble, align, and combine various components and hardware necessary to complete production, prototype and or first article turbine engine packages and trailers.
- Used blueprints, sketches, photographs, schematics diagrams and templates to perform assembly and mechanical operations associated with base manufacturing, including enclosures.
- Worked with wrenches, pliers and die grinders, as well as precision measuring tools such as micrometers and calipers.

Target, San Diego, CA

(11/2009 – 01/2010)

Backroom Team Member

- Pull items from stockroom to replenish store goods on shelves.
- Attend to customer requests as needed.

La Jolla Playhouse/UCSD, La Jolla, CA

(09/2009 – 11/2009, 09/2007 – 12/2008)

Carpenter/Welder

- Built and install scenery per blueprints, utilizing MIG welding and various scenic construction methods and materials.

VDA Productions, Somerville, MA

(07/2007 – 09/2007)

Welder/Carpenter

- Built and install scenery for themed events, trade shows per blueprints.
- Utilized MIG welding and various scenic construction methods and materials.
- Operated a drill press, band saw, cold saw and ironworker
- Worked with stainless steel, aluminum, sheet aluminum

Showman Fabricators, Long Island City, NY

(05/2007 – 07/2007)

Carpenter/Welder

- Built scenery for theatre, television, and industrial/trade shows per blueprints.
- Utilized MIG welding and various scenic construction methods and materials.

La Jolla Playhouse/UCSD, La Jolla, CA

(03/2007 – 05/2007)

Carpenter/Welder

- Built and install scenery per blueprints, utilizing MIG welding and various scenic construction methods and materials.

The Old Globe, San Diego, CA

(03/2004 – 02/2007)

Carpenter/Welder

- Built and install scenery per blueprints, utilizing MIG welding and various scenic construction methods and materials.
- Operated a drill press, band saw, cold saw and iron worker
- Performed metal fabrication of steel frames
- Performed MIG welding on mild steel, grinding, plasma and oxy-acetylene cutting
- Worked with stainless steel, aluminum, sheet aluminum

Hot Topic, National City, CA

(11/2003 – 01/2004)

Sales Associate.

- Provide assistance to customers while maintaining a clean and organized store.

Target, San Diego, CA

(07/2001 – 01/2003)

Backroom Team Member

- Pull items from stockroom to replenish store goods on shelves.
- Attend to customer requests as needed.

SKILLS

- Six years experience MIG welding (solid wire and flux-core)
- Drill press, band saw (vertical and horizontal), cold saw, ironworker, belt sander
- Plasma and oxy-acetylene cutting experience
- Automotive knowledge, theory and repair (mechanical and electrical)
- Use of precision measuring tools such as micrometers and calipers
- Understanding of blueprints and technical drawings
- Computer skills, typing
- Forklift operation

EDUCATION

WyoTech, West Sacramento, California

Diploma – Automotive Technology, with a concentration in Motorsports Chassis Fabrication courses.

- Included theory, competency and performance tests in the MIG and TIG welding processes, plasma and oxy-acetylene cutting process, as well as proper operation of a drill press, band saw, ironworker, and standard mill and lathe.
- Learned the correct use of precision measuring tools such as a dial indicator, micrometer, and depth gauge.

Southwestern Community College, Chula Vista, California

Architecture studies, general education curriculum.

Mar Vista Senior High School, Imperial Beach, California

Diploma – General high school curriculum; lettered in band and theatre.
