Accomplishments

Supervision

- Supervised and maintained workers to ensure we stay on task.

Test/Measurement Equipment

- Expert proficiency is using Oscilloscope, Frequency counter, Logic analyzer and Spectrum analyzer.

Quality Improvement

- Streamlined design development process and significantly increased production.

Professional Experience

• Electrician/Parts Runner

June 2010 to August 2010

Blair – Fort Worth, Texas

Prepared specifications of electrical systems and topographical maps to ensure that installation and operations conformed to standards and customer requirements.

• Field Tech

June 2012 to August 2013

Ecotality – Dallas, Texas

Install and repair commercial and residential electric car charging stations

• Test Engineer

September 2013 to Current

Flextronics – Fort Worth, Texas

Diagnosis and repair testing equipment for cellular phones

Education and Training

- **ITT Tech Institute** 2012 Arlington, Texas, USA

Computer Electronic Engineering Technology Associates

Graduate December of 2012
