Work experience

Leggett and Platt

feb 2012 — dec 2013

cnc machine operator

I made all types of wood products using a CNC machine, performed quality control tasks by reading blueprints, using digital calipers and tape measures to insure quality.

Qualifications

I have 2 years experience operating woodwork CNC machines, I have a year experience in welding with mig, tig, stick and flux core welding processes in a college welding program also in operating numerous cutting and grinding equipment and tools including oxy acetylene torches and power grinding tools. I can read blueprint drawings having successfully taken a blueprint reading course in college and am computer literate, having taken BCIS (Business computer information systems) college course. I am also fluent in English and Spanish.

Education

BCIS(business computer information systems)

7-7-14 — 8-14-14

Tarrant County College

course was based on using Microsoft Word, Microsoft Excel, PowerPoint and document creating.

GMAW (gas metal arc welding)

5-27-14 — 7-03-14

Tarrant County College

Learned to weld using the gas metal arc welding process (MIG) welding in flat position, vertical, horizontal and overhead.

SMAW (shielded metal arc welding)

8-25-14 — 10-16-14

Tarrant County College

Learned to weld using the stick metal arc welding process (stick) in the flat, horizontal, vertical and overhead positions.

Blueprint reading and sketching

8-25-14 — 10-16-14

Tarrant County College

Studied blueprint reading and sketching for machine and welding trades, learning about various blueprint reading and sketching methods.

GTAW (gas tungsten arc welding)

10-20-14 — 12-11-14

Tarrant County College

Learning to weld using the gas tungsten arc welding process (TIG) in flat, horizontal, vertical and overhead positions.

Layout and fabrication

10-20-14 — 12-11-14

Tarrant County College

Learning to layout and fabricate using welding, oxy acetylene and other fabricating methods.

Interests

I like to weld, operate machinery and computers, staying active and always willing to learn more!
