Volunteer, Internship, and Work Experience

Laboratory/Scientific Field Work Experience

A.R.E.L (Aquaculture Research and Education Laboratory)

Fall 2010–Summer 2011

Volunteer and Paid Intern

- A.R.E.L Intern, worked to maintain the health and quality of life of aquatic animals, including feeding, taking water quality (pH, Dissolved Oxygen levels, Salinity, testing for ammonia, nitrite and nitrate in water), and research documentation.
- Worked to maintain the health and good environmental quality of aquatic animals (Fish and turtles).
- A.R.E.L Summer Camp Counselor for elementary school children interested in the sciences. Duties included tutoring and supervising.

NHEC (National Hispanic Environmental Council)

Summer 2011

Internship/Scholarship

- Participated in and received certificate for 250 hours of environmental studies, including testing for water quality, soil quality, field surveying, and scientific documentation.
- Took minor courses on environmental careers dealing with environmental protection, fish and wildlife services, and branches within the USDA.

Cheyney University Department of Natural and Applied Sciences

Fall 2012

Organic Chemistry Lab Intern (Work Study)

- Worked in lab set up and cleanup for organic chemistry experiments, which included handling and measuring chemicals and proper use of lab utensils.

South Dakota State University REU in Bioenergy

Summer 2013

Internship in Soil Science Department

- Field work in soil sample collection, plant crop management, soil and GHG testing, as well as ecological training.

Cheyney University Department Of Aquaculture Cyanobacteria Research

Fall 2013

Research Technician

- Led a personal research experiment in monitoring the growth rate for Spirulina using three different nutrient sources to determine which of the nutrient sources enhanced spirulina growth more efficiently.
- Trained in lab protocol and lab techniques in dealing with microorganisms.
- Experienced in laboratory and research documentation.
- Experienced in aquaculture of cyanobacteria.

Administrative Work Experience

Office of Texas State Representative Barbara Mallory Caraway

Summer 2009

Minor Office Secretary

- Answered phones and organized office documents.
- Was an Honorary Messenger for special sessions.
-

Cheyney University at Center City (Graduate Admissions Office)

Summer 2012

Administrations Intern

- General Secretary (handling sensitive paper work and handling enrollment management duties)
- Administrative Intern (working with data entry in multiple systems, database filing, and using all office related equipment)

Education

Northeast High School (Magnet Program)

Graduated 2010

Magnet S.T.E.M student

- Focused on technology and sciences courses.
- Took ICDL courses and became certified in 2009.
- ***Joined Project SPARC's Robotics team (2006-2010).***

Cheyney University of Pennsylvania

2010-Present

Majoring in Ecology/Environmental Biology

- ***Keystone Honor's Student***

Skills

- Quick learner with a solid work ethic.
- Can handle working in a fast pasted environments.
- ICDL Certified (International Computer Driver's License).
- Experienced with documentation and data entry in both physical journal and computer data entry systems.
- Experienced in laboratory settings, including using profession laboratory equipment.
- Experienced in conducting scientific research.
