Career Objective: To secure a position with a well-established organization that will lead to a lasting relationship in the field of Environmental Sciences where I can utilize my strong desire to become a Professional Environmental Engineer.

Work Experience

Research Scientist

July 2013 – Present

Frontage Laboratories

- Assists in assay development and method validation for characterization of biomarkers and biological drugs using post-translational modification (PTM) analyses including phosphorylation, nitration, lipidation, glycosylation and methylation.
- Independently perform study set-ups and routine lab operations, such as preparing reagents and pipettes, weighing, monitoring, recording and replenishing supplies
- Perform data analysis and maintain study records
- Perform routine mathematical calculations and documentation of results and accurately record observations in accordance with GCP, GMP, GLPs and SOPs
- Assist in multiple inter-related scientific studies simultaneously
- Assist in monitoring, addressing and correcting environmental and equipment alarms; troubleshoot and repair equipment
- Organize and conduct work assignments in a safe manner and according to SOPs and GLP regulations

Research Technician

June 2012 – July 2013

Reaction Biology Corporation

- Assist the Directors and PIs in all activities related to assay and technology development, customer services, and research projects
- Assists in the execution, processing, and data analysis of Kinase, HDAC, Methyltransferase and other enzyme class assays
- Independently perform smaller order assays and analysis of data
- Helps Directors to implement improved methods of the processing and analysis of data
- Maintains general laboratory cleanliness and order
- Proper handling and disposal and radio labeled isotopes and waste

Laboratory Technician

January 2012 – June 2012

MB Research Laboratories

- Assistance to various toxicology assays including: Local Lymph Node Assay, Porcine Cornea Reversibility Assay (PorCORA), Chorioallantoic Membrane Vascular Assay, (CAMVA), Bovine Corneal Opacity and Permeability Test (BCOP), MatTek EpiDerm™ Corrosivity Test, MatTek EpiOcular™ Corrosivity Test, and Corrositex Test
- In Vivo technical duties including animal handling (animals included: mice, rats, rabbits, and guinea pigs), health maintenance, test article preparation, dosing, body weights, animal preparation, systemic observations, scoring parameters, and necropsy procedures
- In Vitro technical duties including pipette verification and use, media preparation, test article preparation
- Performance and understanding of cell and tissue culture, flow cytometry, and confocal microscopy
- Trained in GLP and SOPs environment

Home Health Aide/ Caregiver

June 2006 – August 2010

Family Caregivers and JEVS

- Trained in providing companionship activities to individuals while maintaining a comfortable and caring atmosphere
- Assisted and provided help with personal hygiene, bathing, dressing, and administration of medical plans
- Provided patients with services including housekeeping, errands, laundry, banking, and escorting to and from various activities
- Provided full time care to a chronically disabled Multiple Sclerosis patient
- Trained in the use of various mechanical lifts and medical procedures

Education

West Chester University

- Bachelor of Science in Biology
- GPA: 3.7
- Member of Biology Club
- Div. I Field Hockey - Team Captain

Relevant Coursework:

Terrestrial-Ecology
Ecology

Bio-statistical Applications
Botany

Statistics
Biology
