OBJECTIVE

To obtain a position at your company

EDUCATION

Claflin University, Orangeburg, SC
Master of Science in Biotechnology,
Concentration in Forensic Science

May 2011, GPA 3.83

Bachelor of Science in Biotechnology

May 2009, GPA 3.63

WORK / RESEARCH EXPERIENCE

United Allergy Services, Pasadena, TX

April 2013- Present

- Test patients for allergens common to their specific area.
- Make IT medication with accordance to patient allergy test results
- Perform insurance verifications
- Assist and educate patients on their IT treatments

United Allergy Services, Oklahoma City, OK

April 2013- Present

- Test patients for allergens common to their specific area.
- Make IT medication with accordance to patient allergy test results
- Perform insurance verifications
- Assist and educate patients on their IT treatments
- Tripled patient flow

United Allergy Services, Texarkana, TX

August 2012- April 2013

- Test patients for allergens common to their specific area.
- Make IT medication with accordance to patient allergy test results
- Perform insurance verifications
- Assist and educate patients on their IT treatments

Albertson's Pharmacy, Texarkana, AR

November 2011 – August 2012

- Distributed patient Medications
- Filing of patient documents
- Assisted in patient insurance verification
- Assisted in inventory of pharmacy.

Claflin University, Orangeburg, SC

August 2009 – April 2010, *Graduate Researcher*

- Conducting research on HLA typing
- Conducting research on HLA knockout using techniques in cDNA synthesis, PCR, Gel Electrophoresis, RNA extraction, bacterial culturing, transformation and tissue culture
- Utilized techniques such as RT-PCR and cDNA synthesis.
- Performed and mastered tissue culturing techniques

Summer 2009, *Program Coordinator - Summer Program 'From the Farm to the Runway' 2009*

- Assisted the students in the summer program by introducing the concepts and history of cotton and its role in the fashion industry.
- Assisted with introducing the concepts of biotechnology and processes associated within the cotton industry to the students.

Spring 2007, *Chemistry Tutor*

- Assisted students in areas of study

Fall 2006, 2008, 2009, 2010, 2011, *Laboratory Assistant*

- Supervised students in lab
- Assisted professor in lab
-

Spring 2006, 2007, 2009, 2011, *Laboratory Assistant*

- Supervised students in lab
- Assisted professor in lab

Howard Hughes Medical Institute, Clemson University, SC

Fall 2008, 2007, 2006- Spring 2009, 2008, 2007, *Intern*

- Generated mutant transposons for pathogen *Moraxella catarrhalis*.
- Assisted with the screening of mutant sensitivity against LL-37
- Conducted research on Ryanodine Receptors on Melanoma

University of California Davis, California, USA

Summer 2008, *Intern Biology Department*

- Assisted with the research on a Rice Project
- Conducted experiments using DNA extraction and PCR.

University of South Carolina, South Carolina, USA

Summer 2007, *Intern Biology Department*

- Used processes to map miRNAs

SCHOLASTIC ACHIEVEMENTS

Outstanding Graduate Student Award, Academic Year 2009-10

Publication of thesis paper on Ryanodine receptors, Available online April 23rd, 2008.

The Alice Carson Tisdale Honors College Scholarship Award, 2005-09

PROFESSIONAL ACHIEVEMENTS

Certified Clinical Allergy Specialist - 2012

Texas Podiatric Medical Association- Certification in Podiatric Medical Assistant Radiology, 2011

American Association for Microbiology- 2010- Present

LEADERSHIP ACTIVITIES / COMMUNITY SERVICE

Claflin University Friends of Earth – Assistant Advisor 2009-11, Chaplain 2006-08,

Claflin University United peer Educator- 2005-06

Faith Tabernacle Community Service Project

Claflin University Leadership Development center, Living and Learning Center Director of Counseling and Kleist Hall

Tutoring

PUBLICATIONS

Ryanodine receptor expression correlates with tumor grade in breast cancer. Vol.14, Pathology and Oncology Research, 2008 pp.157-160 (with Abdul M, Hoosein N)

PRESENTATIONS

“Using RNAi, Successful Grafting can be Achieved by Major Histocompatibility Knockout in Jurkat T Cell Lines”, Annual Biomedical Research Conference for Minority Students, Charlotte Convention Center, Charlotte North Carolina, (November 2010)

“Inhibition of HLA gene Expression in Jurkat T- Cell via RNA Interference”, 2010 Conference on Communicating Sciences, Hyatt Regency Hotel, Greenville, SC (November 2010)

“The Efficient Donor/Recipient Systematic Analysis of the Major Histocompatibility Knockout of in Jurkat T- Cell Line using RNAi”, 2010 International Conference on Biofabrications, Sheraton University City Hotel, Philadelphia, PA (October 2010)

"Identification of LL-37 resistance genes in *Moraxella catarrhalis*", Seventh Annual SC Life Colloquium of undergraduate research, Morris College, Sumter, SC (April 2009)

"Elevation in ryanodine receptor expression in melanoma", Sixth Annual SC Life Colloquium of undergraduate research, Claflin University, Orangeburg, SC (April, 2008)

"Rynodine Receptor expression in Breast Cancer Cells", Fifth Annual SC Life Colloquium of undergraduate research, Benedict College, Columbia, SC (April, 2007)

TECHNICAL SKILLS

Microsoft Office Suite, Adobe Reader.
