SKILL SUMMARY: Solid background collecting and analyzing water samples, maintaining and calibrating laboratory and field equipment, writing and reviewing technical documents, inspecting and characterizing industrial facilities to ensure compliance with wastewater discharge permits. Ability to prioritize assignments, work independently and cooperate as a team player. Proficient with Microsoft Word, Excel, Access, PowerPoint, and Google Earth.

EXPERIENCE:

- | | | |
|--|--|-------------|
| 1/11 - Present | Alexco Resource, US Corp.
<i>WWTP Operations Coordinator</i> | Denver, CO |
| <ul style="list-style-type: none">• Operate and maintain a conventional wastewater treatment plant at a former smelter site.• Develop and maintain an operations and maintenance plan, sampling and analysis plan, and spill prevention and control plans.• Collect and analyze water/soil samples.• Maintain and calibrate equipment including an atomic absorption instrument, pH meters, turbidimeter, pumps and level sensors.• Analyze data and prepare periodic compliance reports for regulatory agencies. | | |
| 11/09 - 1/11 | Tetra Tech EM Inc.
<i>Environmental Scientist II</i> | Boulder, CO |
| <ul style="list-style-type: none">• Wrote and reviewed technical documents including environmental assessments, stormwater pollution prevention plans, hazardous materials business plans, etc.• Researched environmental regulations and provided recommendations to clients.• Prepared environmental permit compliance binders to assist clients with environmental requirements found in air permits, hazardous waste regulations, stormwater and wastewater permits.• Managed data in an environmental compliance databases and a document library for two nationwide automobile auctions.• Conducted construction stormwater inspections to document compliance with permits. | | |
| 09/08 - 10/09 | Xcel Energy
<i>Environmental Analyst</i> | Golden, CO |
| <ul style="list-style-type: none">• Developed environmental procedures to minimize deficiencies and ensure compliance with Colorado water quality regulations.• Conducted research, prepared and/or reviewed data required to support wastewater permit applications, regulatory reports and management plans.• Performed in-depth environmental audits to facilitate compliance with applicable water quality regulations. | | |

10/05 - 08/08

City and County of Broomfield
Industrial Pretreatment Coordinator

Broomfield, CO

- Managed all aspects of an EPA approved Industrial Pretreatment Program.
- Developed wastewater discharge permits for significant industrial users; verified compliance through sampling, reporting and inspections.
- Reviewed, interpreted, and evaluated a variety of sample results to assess water quality.

05/04 - 10/05
CO

South Adams County Water & Sanitation

Henderson,

Industrial Pretreatment Technician

- Assisted with all aspects of an EPA approved Industrial Pretreatment Program.
- Reviewed permit applications and industrial waste surveys to determine if industries are significant to the wastewater treatment plant.
- Conducted pollutant source investigations in the collection system.

05/02 - 05/04

City and County of Denver, DIA
Environmental Inspector

Denver, CO

- Sampled, calculated flow rate, performed analysis, and prepared discharge monitoring reports in accordance with Denver International Airport's Individual Stormwater Permit.
- Analyzed chemical oxygen demand using a spectrophotometer.
- Collected and analyzed stream data for a receiving water quality study.
- Created Denver International Airport's Sampling and Analysis Plan.
- Operated the contaminated stormwater system in accordance with a wastewater discharge permit.

EDUCATION:

- B.S. Land Use with an emphasis in Environment and Resources - GPA 3.78
Metropolitan State College of Denver
- HAZWOPER Certified
- Certified Colorado Wastewater Operator, Level D
