

HEATHER THURMAN

3201 Fairington Drive * Lithonia, Georgia 30038 * (770) 987-6100 * heather1969451@att.net

OBJECTIVE

To add value to your organization as a **Laboratory Technician**, utilizing expertise in research, analysis, manufacturing, sample process testing, inventory maintenance, communication, collaboration, team training and supervision.

PROFILE

- **Dedicated professional** with over sixteen years of laboratory experience, including over five years in a team Six Sigma/TQM environment, adept at prioritizing and completing multiple projects in compliance with strict regulations.
 - **Consistently demonstrating a high standard of excellence**, supervising Coolant Analysis department, organizing all incoming samples and serving as Assistant Project Manager for ALS Group's second largest customer (accounting for 33% of revenue.)
 - **Effective communicator**, skilled at cultivating and maintaining professional relationships, facilitating training sessions for coworkers and interacting with individuals of diverse backgrounds.
 - **Offering expertise in vehicle lubricant analysis**, using the following instrumentation and methods: FTIR, Carboxyl, % Fuel Dilution by GC, Wear Particle/Oil/Extended Life Analysis, pH, Soot and Kinetic Viscometers.
 - **Proficient in soil sample analysis**, using Extractions, Minerals, Oil, Water and Grease, Sonication, Buffer Preparation and Titration.
 - **Experienced in GMP, OSHA, ISO 9002 and A2LA** working environments and ensuring the highest standard of laboratory safety.
-
