

THEODORE DAVIS

830 Westview Dr. S.W.; Unit 140169, Atlanta, GA 30314

(404)-457-4344 • theo.ddavis@yahoo.com

EDUCATION.

Morehouse College

Atlanta, Georgia, USA

Expected Graduation Date: May 2014

*Candidate for Bachelor's of Science: Biology and Chemistry
Minor in Mathematics*

Current Cumulative Science GPA: 3.63/4.00

Awards & Honors: The Gentlemen's Club Tuition Scholarship Recipient, Morehouse College Public Health Society Academic Scholarship Recipient, Alpha Lambda Delta Honor Society, Dean's List, Certificate of Commendation for Outstanding Achievement

Related Coursework: General Biology 111 & 112, Inorganic Chemistry 111 & 112, Cell Biology 251, Mind and Body 123, Organic Chemistry 231 & 232, Physical Chemistry 321 & 322; Biochemistry, Physiology, Environmental Studies and Undergraduate Research. Electricity and Magnetism, and Mechanics (w/ Associated Labs). Calculus I, II and III; Differential Equations and Linear Algebra.

RESEARCH EXPERIENCE

Emory University – Fellowship in Research and Science Teaching (F.I.R.S.T.)

Atlanta, GA

Research Assistant

June 2011 - August 2011

- Assist in research of the gene expression of cells by microarray
- Focused on identifying the role of UCH-L1 in Oncogenesis and the inhibiting effects on the protein.
- Prepared abstracts and poster presentations for research conferences
- Responsible for performing analysis of DNA sequence, plasmid, SI Mapping, Ingenuity Pathway Analysis of Focus Genes and Miniprep DNA purifications.

Morehouse College – Explorations in Neuroscience Research Fellowship

Atlanta, GA

Research Assistant

June 2011 – Sept. 2011

- Conducted laboratory experiments to identify and determine the role of specific proteins in brain trauma.
- Synthesis, In Vitro Transcription, Purification, Amplification and Extraction with Trizol Reagent of RNA.
- Preparation, Sterilization and Distribution of tissue/cell cultures
- Perform Microarray (Amino Allyl MessageAmp™ II aRNA Amplification Kit)

Morehouse College – Organic & Material Chemistry Research – Lawrence Lab

Atlanta, GA

Research Assistant

June 2012 – present

- Focused on the development of synthetic methodologies that enable the preparation of highly electron deficient conjugated polymers (n-type semiconductors) as new functional materials.
- Fabricated low-cost, highly efficient and mass-produced organic species with the ability to mobilize and carry charge in electrical devices such as photovoltaic cells.

Universidade de Sao Paulo – Models of Success (M.O.S)

Sao Paulo, Brazil

Research Assistant

June 2013 - August 2013

- Investigating 4-HNE's role in the skeletal muscle physiology upon a single bout of physical exercise.
- Drug injections/treatment and Exercise training of experimental Rats
- Mitochondria isolation and testing respiration performance (H₂O₂ Production and Oxygen Consumption)
- Studied the effects of acute inhibition of mitochondrial fission with peptide P110 before and after myocardial Infarction and its contributions to cardiac protection and improved mitochondrial function

Morehouse College –Neuroscience Research – Ford Lab

Atlanta, GA

Research Assistant

September 2013 – Present

- Studying the efficiency of drug release characteristics of Physically Cross-Linked Thermo sensitive Poly(N-vinyl caprolactam) Hydrogel Particles.
- Encapsulate the recombinant human NRG1-β1/HRG1-β1 protein so as to visualize and quantitate its' delivery to the brain following acute brain injury due to focal stroke associated with the attenuation of ischemia-induced pro-inflammatory and stress.

Morehouse College – Biomaterial Research – Mendenhall Lab

Atlanta, GA

Research Assistant

September 2013 – Present

- Developing a nanoparticle system for targeted drug delivery across the blood brain barrier.
- Preparation of Poly (N-vinyl caprolactam) (PVCL) Microgels with controlled release.

ACTIVITIES & LEADERSHIP

Health Careers Society

Sophomore Student Representative

August 2011 – May 2012

- Research, organize and implement fundraising programs to raise capital for general body activities; Represented the interest and concerns of the sophomore health career community

Morehouse College Office of Housing and Residential Life

Resident Advisor

August 2012 - Present

- Assist in creating a healthy, safe and thriving environment where students can gain experience, be involved and develop their interpersonal, academic and leadership potential.

Morehouse Chemistry Association

Program and Project Director

August 2012 - Present

- Plan, organize and implement programs including fundraisers, community service or research presentations for club members and staff; Create and distribute programs and flyers to student body;

Morehouse Business Association

General Member

August 2011 - Present

- Participate in business conferences and seminars that foster the development of leadership and professional skills in students

Student Government Association

Resident Hall Senator

September 2011 - June 2011

- Construct college student legislations; Approve or deny appointments made by the President of the Student Government Association; Determined the fate of any budget proposals initiated by the Executive Branch, Judicial Branch.

VOLUNTEER EXPERIENCE

Grady Hospital

Atlanta, GA

Student Volunteer

January 2012 – May 2013

- Participate in direct patient care, and assist with the doctors requested assignments; Allowed networking and shadowing of volunteering physicians; Interactions with various patients in recovery or awaiting discharge

St. Jude's Children Hospital Student Organization

Atlanta, GA

Student Volunteer

January 2011 - Present

- Research, organize and implement fundraising programs to raise capital for St. Jude's Children Hospital patients

Fredrick Douglas Saturday Student Tutorial Program

Atlanta, GA

College and High School Tutor

September 2011 - Present

- Serve as an official chemistry, biology or mathematics tutor for elementary school, middle school and high school students.

Children's Hospital of Atlanta at Eggleston

Atlanta, GA

Student Volunteer

Sept. 2013 – present

- Help with kids that are admitted to the hospital in the emergency room. Transport patients around the hospital. Cheer patients and family by keeping them occupied.

Winship Cancer Institute of Emory University

Atlanta, GA

Student Volunteer

October 2013 – present

- Assist with the doctors and nurses requested assignments; Interactions with various patients in recovery or awaiting discharge

Faculdade Zumbi Dos Palmares English-Portuguese Tutoring

Sao Paulo, Brazil

English Tutor

June 2013 – August 2013

- Taught English to undergraduate students at Zumbi College in Brazil twice a week for duration of the trip.
