

OBJECTIVE

To utilize my skills and resourcefulness in a dynamic and challenging environment to collaborate with colleagues to problem solve and find solutions to chemical engineering related projects.

EDUCATION

BS CHEMICAL ENGINEERING 2013

University of New Mexico Albuquerque, NM 2012-2013
Concentration in Chemical Process Engineering

BS BASIC SCIENCES 2012 with Honors

New Mexico Institute of Mining and Technology Socorro, NM 2009-2012
Chemical and Petroleum Engineering Coursework

Undergraduate Studies

University of Arizona Tucson, AZ 2006-2009
Foreign Languages: Spanish, Arabic, German, Portuguese
Completed Basic Engineering Degree Requirements

CERTIFICATION

NCEES Certified Chemical Engineer-In-Training April 2013
2 years experience

INTERNSHIP

IRIS/PASSCAL

(Incorporated Research Institutions for Seismology/Program for Array Seismic Studies of the Continental Lithosphere)

- Perform diagnostic tests on returning/outgoing scientific equipment.
 - Voltage Efficiency Tests on Solar Panels 30W and 60W.
 - Test geophones and calibrate other seismological equipment.
- Woodcutting and painting platforms for solar recording boxes.

COURSEWORK

- Block Diagrams/PFD/P&ID
- Properties of Petroleum Fluids
- Drilling/Drilling Mud Lab
- Natural Gas Engineering
- Well Completions
- Engineering Economics
- Chemical Engineering Kinetics
- Automated Process Control
- P |PI | PID Controller Tuning
- Design of Experiments
- Equipment Sizing/Costing
- Heat & Mass Transfer

LEADERSHIP AND INVOLVEMENT

- American Institute of Chemical Engineers (AIChE) Member 2006 - 2013
- Society of Petroleum Engineers Member 2009 - 2011
- New Mexico Tech Tennis Club Founder/President 2009 - 2011
- Student Senator New Mexico Tech Spring 2010 - 2011

SKILLS

- ChemCAD / Aspen Plus
- Microsoft Office Suite
- Programming using VBA /C
- Communication\ Public Speaking
- Strong Analytical Skills
- Advanced mathematical computations
- Proficiency in technical writing
- Unit Conversions / Oilfield units
