

Rose Mina Kirkwood

Address: 13013 Providence Place Bakersfield, CA 93314

E-mail: minakirkwood@ucla.edu

Phone: (661) 302-1957

Objective: Interested in an internship or research position for preferably the summer of 2014 to give hands on experience in the Chemical engineering industry.

Education

2011 – present *University of California, Los Angeles* (expected June 2016)

B.S. Chemical Engineer, Biomolecular option

2011 *Liberty High School, Bakersfield, CA*

GPA: 4.5

Affiliations

2011 – present *Society of Women Engineers*

Went to several conferences and meetings for networking and learned about what all types of engineers have to offer.

2012-present *American Institute of Chemical Engineers*

Participated and attended events such as career fairs and info sessions about different industries available for chemical engineers.

2013 – present *International Society for Pharmaceutical Engineers*

Went on plant tours and to info sessions for networking and learning about the different types of biotechnology companies.

Leadership

2007 *People to People Student Ambassador*

People to People is an organization that promotes global awareness through leadership. Traveled to Australia as a student ambassador for Bakersfield.

2008 – 2011 *Kern County Student Leadership*

Went to conferences that helped develop leadership skills. Represented my high school as a leader.

2013 – present *Kaplan Campus Representative*

Work with customers interested in taking classes with Kaplan and inform them with all the advantages Kaplan has to offer.

Relevant Experience/Lab Skills

- Analysis of protein size using SDS-Page
- Used ONPG to assay β -galactosidase activity in certain E. coli cells.
- Usage of Agarose Gel Electrophoresis and spectrophotometry to determine the quality and quantity of a PCR product.

Relevant Skills

- Hardworking
- Innovative
- Eager to learn new things
- Willing to take on responsibility
- Work well with others
- Organized
- Experienced in Microsoft Word/Excel/Power Point and computers in general
- Know basic programming language in C+
