- Proficient on MS Windows (98, 2000, Me, XP, 7)
- Proficient on MS Office (Word, Excel, Outlook, PowerPoint)
- Communication
- Multitasking
- Team Oriented

Chemist

US Department of Agriculture - Athens, GA - July 2012 to June 2013

- Executed analysis on assigned samples with established guidelines and standards
- Performed investigative analysis associated with detecting chemical residues in meat and poultry products
- Used wet chemistry extraction and clean-up techniques to include liquid/liquid and solid phase extraction
- Troubleshoot instrumentation as needed
- Created and compiled reports within designated deadlines
- Completed projects and training on time in a competent, accurate and thorough manner
- Utilized laboratory resources effectively
- Successfully maintained proficiency on assigned analyses
- Operated and maintained analytical instruments; instruments logs kept updated and maintained
- Adhered to established agency health, safety and environmental policies and guidelines

Equipment Used

- Expert on LECO FP-2000 Nitrogen Analyzer
- Proficient on Agilent HPLC
- Knowledgeable on Waters™ LC-MS-MS
- Familiar on ICP-OES and ICP-MS

Secondary Science Teacher

El Paso ISD - El Paso, TX - August 2008 to March 2012

Teacher – Science (Biology, Chemistry & Physics)

- Employed a broad range of instructional techniques to retain student interest and maximize individual learning within a group environment
- Utilized computer resources and the Internet, to promote interactive learning
- Utilized other technology to promote learning based on different learning styles
- Helped to prepare students for the future workforce by introducing new technology and encouraging interactive group-work and problem-solving
- Prepared and implemented remedial programs for students requiring extra help
- Organized and supervised extracurricular and after-school activities
- Maintained up-to-date subject knowledge and researching new topic areas, resources and teaching methods

Peer Leader (General Chemistry)

University of Texas at El Paso - El Paso, TX - August 2005 to December 2007

- Created and implemented lesson plans for General Chemistry I
- Used collaborative team based learning and guided inquiry learning
- Conducted labs and safety lessons
- Trained Peer Leaders in general chemistry, physics and math
- Prepared weekly labs
- Created/organized teaching schedules for other peer leaders

In-Store Marketing Associate

Sears - El Paso, TX - November 2002 to August 2004

Responsibilities

- Performed weekly advertisement setup,
- Make sale signs
- Responsible for overall store visualization
- Setup merchandise using plan o grams (POGs)

Merchandise Customer Assistant (Seasonal)

Sears - El Paso, TX - September 2001 to January 2004

In-Store Marketing Associate

- Performed weekly advertisement setups throughout the store
- Used the software application SignWriter to complete the advertisement signs
- Responsible for overall visualization of the entire store
- Assembled the displays for new and existing merchandise items
- Trained new employees

Merchandise and Customer Associate

- Maintained and restocked inventory
- Maintained presentation throughout the sales floor
- Provided customer service in a fast-paced environment

Work Study Student (Safety Office)

El Paso VA Health Care Center - El Paso, TX - January 2002 to December 2002

Generated safety reports. Organized various safety documents. Verified MSDS sheet. Inspected fire extinguishers. Supervised fire drills. Assisted in safety training for new employees

EDUCATION

BS in Chemistry

Univ. of Texas at El Paso - El Paso, TX
2001 to 2008

MILITARY SERVICE

Service Country: US

Branch: US Army

Rank: E-4 Specialist

July 1998 to June 2001

Patriot Missile Maintainer/Operator (14T)

- Operated and maintained missile launcher, HEMMT vehicle, forklifts, and HMMWV's

Orderly Room Clerk

- Typed and processed various military documents (used SATS and Form Flow as well as Microsoft Office), answered phones, used fax machines

Commendations:

Four Army Achievement Metals

PUBLICATIONS

“‘Plus Two’ Peer-Led Team Learning Improves Student Success, Retention, And Timely Graduation”

October 22, 2008

Peer Lead Team Learning (PLTL) is one strategy that substitutes two hours of Workshop: small-group, active learning guided by an undergraduate STEM student (peer leader) for one hour of large section lecture per week in the three-credit-hour chemistry course. Retention of students for the four semesters subsequent to the plus two innovation improved from 70% to 75% and the number of students receiving undergraduate degrees within nine semesters jumped from approximately 34% to 47%.
