

Khashayar Ghazianzad

4349 Frizell Ave.
Sacramento CA 95842, United States
Mobile: (916)705-6431
Home: (916)349-8441
Email: kghazianzad@ucdavis.edu

OBJECTIVE

Obtain a challenging position to apply my skills in the field of chemistry.

EDUCATION

Illinois Institute of Technology 3300 S Federal St Chicago, IL 60616
Master of Science, Material Chemistry with emphasis on Organic Chemistry
August 2012- June 2014 (Expected)

California State University, Sacramento (CSUS)
Master of Science, Biochemistry
August 2011- August 2012

University of California, Davis One Shields Avenue Davis, CA 95616
Bachelor of Science, Medicinal/ Pharmaceutical Chemistry September 2007- June 2010

Shahre Rey University, Tehran, Iran
Associate Degree, Agricultural Science September 1999 – May 2002

Professional Member

- Royal Society of Chemistry since 2009 till date

Skills and Strengths:

- Have expertise and experience in all latest tools and techniques of chemical laboratory.
- In-depth knowledge of environmental laws and safety.
- Profound knowledge of organic chemistry and route synthesis determination.
- Excellent analytical and communication skills.
- Can work under high pressure environment with efficiency.
- Good analytical skill and have expertise working with gas layer chromatography, mass spectrometry, IR spectroscopy, NMR, UV spectroscopy, HPLC, GC, GC/MS.

Work EXPERIENCE

- Worked as an environmental scientist for the Iranian ministry of agriculture where I conducted research to find pollutants and hazardous materials in the environment and reviewed technical reports. August 1999 – May 2002
- Worked as a general manager for the Sierra Shell Corporation. 3999 Douglas Blvd. Roseville, CA 95661 September 2002-June 2008
- Worked with advanced Open Eye Scientific Software to design a potential drug for the treatment of Alzheimer's disease. March 2010-June 2010. UC Davis One Shields Avenue Davis, CA 95616
- Undertook a challenging project in which I used the synthetic organic chemistry techniques to design an anti inflammatory drug without causing any undesired side effects. March 2010-June 2010
- Performed various synthetic organic chemistry experiments during my college career and used various modern methods to separate and analyze the resulting products such as vacuum filtration, IR spectroscopy, NMR spectroscopy and LogP mass spectrometry. August 2005-June 2010
