Production Tech Machine Operator /Filler/Process Operator II

VALSPAR - Garland, TX - September 2012 to May 2014

Adhered to all applicable regulations, policies, and procedures for health, safety and environmental compliance,

- Inspected finished products for quality and adherence to customer specifications.
- Calibrated or adjusted equipment to ensure quality production, using tools such as calipers, micrometers, height gauges, protractors and ring gauges.
- Set up and operated production equipment in accordance with current good manufacturing practices and standard operating procedures.
- Operated sit down and stand up forklifts, Burt labelers, ideal fillers, as well electric drum haulers. I filled customer orders for specific paints to be shipped accurately and on time to customers. I improved customer satisfaction by 15% in two months by picking and pulling orders when needed using mathematical skills

Level II Machine Operator

BLED SOE MEDICAL SUPPLY COMPANY - Grand Prairie, TX - June 2010 to September 2013

Sorted, graded, weighed and inspected products, verified and adjusted product weight or measurement to meet specifications.

- Observed machine operations to ensure quality and conformity of filled or packaged products to standards.
- Monitored the production line, watched for problems such as pile-ups, jams, or glue that wasn't sticking properly.
- Attached identification labels to finished packaged items, or cut stencils and stencil information on containers, such as lot numbers or shipping destinations.
- Stocked and sorted product for packaging or filling machine operation and replenished packaging supplies, such as wrapping paper, plastic sheets, boxes, cartons, glue, ink, or labels.
- Adjusted machine components and machine tension and pressure according to size or processing angle of product.
- Stopped or reset machines when malfunctions occurred, cleared machine jams and reported malfunctions to a supervisor.
- Cleaned, oiled, and made minor adjustments or repairs to machinery and equipment, such as opening valves or setting guides.

- Specialized in the use of assembly and handheld power tools, complex fixtures and riveting equipment to process components into subassemblies and finished products.

Production Class A & B Welder

MANPOWER - Longview, TX - April 2006 to June 2009

Operated safety equipment and used safe work habits.

- Welded components in flat, vertical, or overhead positions.
- Clamp, hold, tack-weld, heat-bend, grind or bolt component parts to obtain required configurations and positions for welding.
- Recognized, set up, and operated handheld and power tools common to the welding trade, such as shielded metal arc and gas metal arc welding equipment.
- Positioned and secured workpieces, using hoists, cranes, wires and banding machines or hand tools.
- Signaled crane operators to move large workpieces.
- Operated brazing and soldering equipment.
- Interpreted verbal and written instructions from work orders and welding blueprint readings, welding repairs on tank rail cars using fluxcore welding technique. Molded frames before adding steel to product and also operated robot welding machine for welds on structural towers.
