

Poplar Bluff Regional Medical Center
Escalation Summary
04/21/25

Date/Time	Unit	Submitted By	Type	Comments
2025-04-21 05:12:51	Labor & Delivery	L&D User	Other	Patient delivered 2 minutes after arrival to floor. Pt care delayed as no delivery table is allowed to be set up in advance now. Being able to have 1 delivery table set up on the floor at all times would have been helpful in taking care of patient in a more timely manner.
